Mr. Daniel R. Conklin, President
Allied Florists Association
2046-Wilson Boulevard
Arlington, Va.

March 22, 1968

Dear Mr. Conklin:

For the past eighteen years, I had the privilege of being Architect for the National Capital Flower and Garden Show, sponsored by Allied Florists.

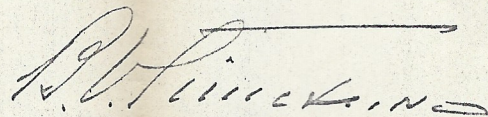

I have enjoyed this work and have never asked for any different financial arrangement, because my main interest was success of the show.

I have always tried and successfully up until the last two years to have the show arranged in a dignified and interesting manner, without the introduction of cheap commercial exhibits. This has given the Flower Show the reputation of being one of the most dignified shows in the Country.

For the past two years, particularly this year the commercial space was considerably increased and many products sold there had nothing to do with the Flower Show or relative to gardening.

Those changes and difficulty of working with the management are the reasons, why I can not serve as Show Architect.

Sincerely:

Boris Timchenko
