Dear Fellow American:

Again we are in a tremendous battle during this National Election.

Vice President Nixon and Ambassador Lodge have proven themselves outstanding leaders and candidates. We are sure that you recognize the absolute need for their election.

During the last eight years the main responsibility and worth of good, sensible government has been obvious to all. I believe it is essential that we, as Landscape Architects, wholeheartedly back the team of Nixon and Lodge so that we can continue to move forward with the policies of the basic American way of life.

Because of the great issues involved, we ask your active help so that we may be able to carry out the final and complete program which will enable us to present to the country the many achievements of this magnificent team.

We urge you to cooperate with us and join the Nixon-Lodge Club, making a contribution to the campaign fund. Please make your check payable to the "Nixon-Lodge Campaign Club," and mail it to 1430 K Street, N. W.

Sincerely,

Boris Timchenko, Chairman
Landscape Architectural Committee
